Piano Fund Benefits a Success.

The Halloween party and social held last evening in Academy hall for the benefit of the piano fund, was largely attended and was a decided success, both socially and financially. The affair was in charge of Mrs. A. M. Bennett and Mrs. W. E. Bartlett, with several helpers, and all who helped in any way to make the success that it was entitled to the gratitude of the committee. Refreshments of sweet cider, doughnuts, sandwiches and cookies were contributed and were much enjoyed. The evening was spent with games and Halloween stunts. The hall presented a very attractive appearance in decorations in keeping with the Halloween season. Several appeared in ghostly costumes and late in the evening the "Old Witch" appeared in the hall. This part, which was taken by E. A. Knight in a witch's costume, created much fun.

Mrs. Collie Lane of South Newfane spent yesterday here with her half-sister, Mrs. Clarence S. Rider.

Mrs. T. M. Albee went to Townshend today to visit in the home of her son, Mark Albee, until tomorrow.

Mrs. M. A. Rider, who had been visiting her granddaughter, Mrs. P. G. Colgrove, a week, has returned home.

AMUSEMENT NOTES.

TUNEFUL EXTRAVAGANZA.

The Million Dollar Doll Ends in Famous Joy Zone Picture.

The Million Dollar Doll, coming to the Auditorium Saturday, matinee and night, is an imaginative, melodious, tuneful musical extravaganza, regally arrayed in costumes of great beauty and variety, presenting a picture of color, light, movement and melody almost beyond imagination. The changes of costume and scenes are bewildering in their frequency and the final picture of the famous "Joy Zone" at the Panama Exposition and illumination of the "Tower of Jewels" presents as brilliant a spectacle as anyone could desire.

Tuneful songs, that will start your feet a-going, hilarious dancing, by people who have forgotten all of their troubles and look only for the gaieties of life, costumes of great splendor presenting a riot of color and beauty, all presented by a company of people who look only on the gay side of life, carry the audience along until one can almost imagine he is really on the Joy Zone at the Exposition. It is one of the biggest musical offerings of the season and in every way represents the very best in musical extravaganza.—Adv.

OPPOSES MR. WILSON'S VIEWS.

Hanly Says Men Who Survive War Will Give Sharp Competition.

PHILADELPHIA, Nov. 1.—In direct opposition to beliefs recently expressed by President Wilson, J. Frank Hanly, the Prohibition presidential candidate, told Pennsylvanians that the men who survive the European war will give the United States sharp competition in the business world. Only the best will survive, he said, and to meet this competition, America should become sober.

"After the war," he said, at Bethlehem, "the men who will come out of the trenches will not be weakened, but purposeful, ready to use to the best advantage all the lessons they have learned in the trenches. Then will come the destined time for action. Then will come a time when mere adjustment of tariff schedules will not suffice. What will? Muscle and fibre and brains. Human machinery of Bessemer steel and not burned-out sheet iron will be needed in America. How will we meet it? By becoming a sober nation."

U. S. STEEL PROFIT

MAKES NEW RECORD

Corporation's Net Earnings in Last Three Months Reach Total of \$85,817,067.

NEW YORK, Nov. 1.—Directors of the United States Steel corporation yesterday declared the regular quarterly dividend of 1 1/4 per cent and an extra dividend of 1 per cent on the common stock out of net earnings for the three months ended Sept. 30. The regular quarterly dividend of 1 1/4 per cent was declared on the preferred stock also.

The earnings were \$85,817,067, the largest for a similar period in the history of the corporation. They compare with \$38,710,644 for the corresponding three months a year ago, and \$51,277,504 in the last quarter of 1915, which at that time set a new high record for the corporation's earnings by about \$5,000,000.

The net earnings were more than \$10,000,000 above the earnings in the entire year of 1914, and were nearly three times as large as in the fourth quarter of 1914, when the net was \$10,935,635.

T. R. WRONG ON MEXICO.

Senator Owen Says Claim 500 Americans Were Killed Is Preposterous.

PHOENIX, Ariz., Nov. 1.—Senator Robert L. Owen of Oklahoma, in a speech here, replied to statements of Theodore Roosevelt on his recent West-end campaign tour that during President Wilson's administration "over 500 Americans and 300 Chinese" have been killed in Mexico.

"Mr. Roosevelt's premises are untrue," declared Senator Owen. "Under Roosevelt's own administration at least 60 Americans were reported killed; under Taft, 57 Americans; under Wilson, 119 citizens and 38 soldiers and marines during nearly four years of revolution. During Taft's administration 356 foreigners were reported to the state department as killed in Mexico, and during Wilson's administration only 230 were reported, including 17 British, 38 Spaniards, 4 Germans, 4 Japanese and 7 Chinese."

"Roosevelt's statement that the President had abandoned 3,000 Americans exposed to a mob at Tampico is a base campaign canard and calumny."

Admiral Mayo ordered his boats in and Captain Dougherty of the British navy requested Admiral Mayo to permit British marines to remove all foreigners to prevent loss of life. This was done and all Americans were sent home by Admiral Mayo without loss of life. Captain Dougherty put his request on the ground of protecting British subjects from exposure from battle in the streets of Tampico which would have occurred if United States marines landed. The United States had just killed over a hundred Mexicans at Vera Cruz.

SUNK IN COLLISION.

Record Mackerel Catch Schooner Rammied by Steamer Camden.

BOSTON, Nov. 1.—The fishing schooner Arthur James of Gloucester was sunk in a heavy fog off Castle island last night in collision with the steamer Camden, bound from Boston to Rockland, Me. Mulasker Hager of Rockland, N. S., a cook on the schooner, is missing and is believed to have been drowned. The other members of the crew climbed into a small boat and were picked up.

Passengers on the Camden were somewhat alarmed when the collision occurred, but they were soon quieted and the steamer made her way back to the dock. Her bow plates were bent in, and after an examination it was decided to cancel her trip. The 150 passengers disembarked. Capt. John Matheson, the master and principal owner of the schooner, broke what is believed to have been the world's record for a mackerel catch when he brought the vessel in one day last week with 120,000 pounds on board. Members of the crew received \$250 each as their share of that one catch, and their total for the week was \$490.

Paris has the largest steam turbine electric plant in Europe, a street railway power station producing 120,000 horsepower.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with "Wyeth's Sage and Sulphur Compound," is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

AVIATOR KILLED BY FALL.

Silas Christofferson Lost Control of His Machine in Flight.

REDWOOD CITY, Cal., Nov. 1.—Silas Christofferson, consulting engineer of an aviation company here, was killed yesterday when his machine overturned and fell 100 feet during a trial flight of a new military aeroplane. Christofferson was flying over the aviation field at a height of several hundred feet when his engine went dead. He veered to an approximate height of 100 feet, then seemed to lose control of his plane and plunged to death.

Christofferson's wife and two brothers were watching the flight and rushed to his aid. The injured aviator was hurried to a hospital, but expired soon after reaching there.

Christofferson was 26 years old. He was born near Des Moines, Iowa. He took up aviation in 1910, and made his most noted flight several years ago between San Francisco and Los Angeles, over the Tehachapi mountains.
